SUMMER CODING LEADERSHIP ACADEMY

Inspiring young Black and Brown boys to become technology entrepreneurs.

WHAT IS SCLA?

The Summer Coding Leadership Academy (SCLA) is Teens Exploring Technology's (TXT) flagship program. SCLA is a wonderful opportunity for black and brown boys to foster relationships that will produce effective communication to unify diverse talents toward common goals and ignite a personal growth journey. Leading tech magnates of tomorrow during an 8-week long program.

Learn
Innovate
Lead

TXTers gain coding skills and proficiency in needs assessment, market research, and product development to create a mobile application that meets a social need. Students then compete by presenting their apps in the SCLA Demo Day to judges, including partners from Dollar Shave Club, Slickdeals and IBM.
